### About This Game

#### Description

Manipulator of Figure 2 - this is the second part of an interesting puzzle that uses physics. You need to deliver the green circle to the purple platform and hold it for 2 seconds to complete the level. The difficulty is that you can not drag the green circle, and you can only affect it with other physical objects. Build paths, build bridges, create balance to deliver the green circle to the platform. Do you have enough wits to complete all the levels?

#### Features:

- interesting gameplay
- minimalistic picture
- an exciting game with physics
- pleasant music
- various levels

manipulator of figure 2

i want more lvls. not my games, but good game. The game looks very simple, but in my opinion it should be like this for the price, everything works, the gameplay at first caused difficulties, but in general it is understandable My Rate: 6.8/10. Passed through, it seemed to me rather difficult at the end, especially the last level, I had to think well, I advise you, as a little expensive puzzle, at least enjoy pleasant music 7/10. game for the development of thinking, both in children and in adults, interesting. simple puzzle, cheap. the game is generally not bad, but it has already been written that there are few levels, and everything is quite nice. yes\uff0cit\u2018s cheap. kind of() challeging, I mean it drives me crazy but N.O.T. worths. you roll the ball so that it lasts 2 seconds on the platform, you help yourself by dragging the figures that, when released, acquire physics, it looks interesting
